Portfolio Line	Industrial PCs and Panels
Quicklinks	SN 29/2021
Status	VALID
Confidentiality	GLOBAL

Preamble

With SN 29/2021, B&R discontinued the CompactFlash card family 5CFCRD.*-06 due to a discontinuation of the raw material.

Unfortunately the order income combined with the necessary Last Time Buy deadlines, led to a high backlog of orders which cannot be covered.

Furthermore many orders were placed after the last time buy deadline and are still being placed, which causes an almost impossible material planning.

Release for PP400

To ease the delivery situation we are currently facing, RnD tested the new CompactFlash cards **0CFCRD.0512E.02** and **0CFCRD.1024E-02** in combination with the PP400 product family. After successful completion

of the tests, these CompactFlash cards are released now for PP400 products.

Procedure

Kindly switch existing orders of 5CFCRD.0512-06 and 5CFCRD.1024-06 for or in combination with PP400 products, to the new CompactFlash cards **0CFCRD.0512E.02** and **0CFCRD.1024E-02**.

For new orders pf PP400 (only possible with a valid contract), kindly also use **0CFCRD.0512E.02** and **0CFCRD.1024E-02** only.
