Discontinuation

The following Windows licenses (WES2009 and Windows XP Pro) are discontinued due to Microsoft's licensing model. Therefore, the lifecycle date (Last Time Buy and Last Shipment) below is triggered by Microsoft, without any prolongation options.

For the mentioned Windows products we don't have 100% compatible successor products. A possible solution could be Windows 10 IoT Enterprise 2019/2021 LTSC for currently available products (except Windows 10 IoT Enterprise 2016 LTSC only for APC/PPC2100).

Due to the urgency this discontinuation is executed according to the current discontinuation procedure.
