Author(s)	Herbert Wimmer
Sales Notice Type	Product-related
Product Group	PG HMI
Quicklinks	Power Panels
Status	VALID
Confidentiality	GLOBAL

## Roadmap update Power Panel C70

On 2023-04-20 we provided a quick roadmap update in the product room for Power Panel C70. There we basically informed about a better availability of discontinued components and the possibility to postpone the discontinuation for now.

We definitely were able to purchase additional quantities of discontinued components. Therefore, we will also be able to prolong the Power Panel C70 lifetime with additional two years and a discontinuation is planned earliest 2025.

Currently there is no successor product available. As far as we have details about that we will inform again, latest in Q2/2024.

Please keep in mind, that even a prolongation of the Power Panel C70 lifetime is possible, we do not offer Power Panel C70 in the new AS/AR 6 anymore.
